

## **NFID Media Registration Policy**

The National Foundation for Infectious Diseases (NFID) welcomes credentialed members of the media at most of its conferences, courses, symposia, and educational programs.

Complimentary media registrations are provided by NFID communications staff and applicants must meet certain criteria in advance of the activity in order to receive access. Members of the media requesting press access must provide the following:

- 1) Name of the publication or website for which they are writing;
  - 2) Name of editor-in-chief and all relevant contact information;
  - 3) Target audience of the publication; and
  - 4) Summary of the specific portions of the educational activity that they intend to cover.
- Bloggers must submit prior entries directly relating to the activity content.

All requests should be directed to [info@nfid.org](mailto:info@nfid.org).
